### **Penalties**

#### **1. Penalties for down time of Solution**

Vendor shall ensure that the software services are available to the Bank in proper working condition viz. uptime of 99.9% of the time on a 24 x7 x 365 basis.

For purpose of calculating penalty, uptime is calculated as under:

$$\text{Uptime (\%)} = \frac{\text{Sum of total hours during month} - \text{Sum of downtime hours during month}}{\text{Sum of total hours during the month}} \times 100$$

Total hours during the month = No. of days in month x 24 hours

Penalties for SLA uptime shall be as under;

| S. No. | Uptime Range      | Penalty                                         |
|--------|-------------------|-------------------------------------------------|
| 1.     | >99.7% and <99.9% | 2% of the monthly bill of the respective month  |
| 2.     | >99% and <=99.7%  | 5% of the monthly bill of the respective month  |
| 3.     | <=99%             | 10% of the monthly bill of the respective month |

The maximum penalty for uptime is capped at 10% of the invoice value for the given month

#### **2. Penalties for Non Performance of SLA**

In case software solution is unable to save the desired power savings above 20% on any particular PC/Desktop in a month, no license or subscription fee will be paid for corresponding number of desktops meeting such criteria.

This penalty is not applicable under the following conditions

- i ) During the base lining period and up to four weeks after the application of power policy
- ii ) For up to four weeks after the installation of the agent on a new machine or OS reinstallation or software agent installation

#### **3. Penalty on account of non-performance of the Support activities**

In case there is default in support and maintenance activities, which may result in downtime of the application or which may result in non-compliance of the security or regulatory requirements, the same would attract a penalty of 2% of the invoice value of the given month.

## **ANNEXURE-E**

### **1. Penalties for down time of Solution**

Vendor shall ensure that the software services are available to the Bank in proper working condition viz. uptime of 99.9% of the time on a 24 x 7 x 365 basis.

For purpose of calculating penalty, uptime is calculated as under:

$$\text{Uptime (\%)} = \frac{\text{Sum of total hours during month} - \text{Sum of downtime hours during month}}{\text{Sum of total hours during the month}} \times 100$$

Total hours during the month = No. of days in month x 24 hours

Penalties for SLA uptime shall be as under;

| S. No. | Uptime Range      | Penalty                                         |
|--------|-------------------|-------------------------------------------------|
| 1.     | >99.7% and <99.9% | 2% of the monthly bill of the respective month  |
| 2.     | >99% and <=99.7%  | 5% of the monthly bill of the respective month  |
| 3.     | <=99%             | 10% of the monthly bill of the respective month |

The maximum penalty for uptime is capped at 10% of the invoice value for the given month

### **2. Penalties for Non Performance of SLA**

In case software solution is unable to save the desired power savings above 20% on any particular PC/Desktop in a month, no license or subscription fee will be paid for corresponding number of desktops meeting such criteria.

This penalty is not applicable under the following conditions

- i ) During the base lining period and up to four weeks after the application of power policy
- ii ) For up to four weeks after the installation of the agent on a new machine or OS reinstallation or software agent installation

### **3. Penalty on account of non-performance of the Support activities**

In case there is default in support and maintenance activities, which may result in downtime of the application or which may result in non-compliance of the security or regulatory requirements, the same would attract a penalty of 2% of the invoice value of the given month.
