Name of the work: INTERIOR & FURNISHING WORKS AT SBI, GLOBAL NRI CENTRE, PATIA S.NO. SPECIFICATIONS 1 FALSE CETLING - (MINERAL FIBRE TILE): Providing & fixing Armstrong false ceiling RH-99 with 600x600x16 amm Fine Fissured Beveled Tegular Edge false ceiling laid in Armstrong silhouette grid system. The frame work comprises of main runner spaced at 1200 mm centres securely fixed to structural soffit by approved hangers at 1200 mm maximum centres. Hangers (G.I. wires 4.0 mm dia) to be fixed by approved roof plug, level adjuster, screws etc. The last runner should not be more than 450 mm from the adjacent wall. Flush fitting 1200mm long cross tee(with double stitching) to be inter locked between main runners at 600mm centres to form 1200x600mm module. Cut cross tees longer than 600mm to be supported independently. 600x600mm module to be formed by fitting 600 mm long flush fitting cross tee centrally between 1200mm cross tees. Perimeter trim to be Armstrong wall angle secured to wall @ 450 mm maximum centres. The rates include making opening for electric fixtures, A.C units etc. Rates include dismantling existing false ceiling and removal of malba from site, complete in all respect. MAKE: Armstrong, St. Gobain (India Gypsum) 2 GYPBOARD FALSE CEILING: Providing and fixing suspended false ceiling including steps as per design with 12.5mm tapered edge Gypsum Board to the grid comprising of cold rolled galvanized metal section to the required line and level. The grid consists of a perimeter channel (MF6a of dimensions 20mm x 27mm x 37mm x 3.5M) fixed round the perimeter to receive and of the ceiling section (MF5) and the outer edges to gypboard. The intermediate channel (MF7) of dimensions 15mm x 45mm x 0.9mm x 3.6M) at 1200mm c/c in the one direction and the	PRICE BID

gypboard. The intermediate channel (MF7) of dimensions 15mm x						
45mm x 0.9mm x 3.6M) at 1200mm c/c in the one direction and the						
ceiling section (MFS of dimensions 80mm x 26mm x 0.5mm x 3.6M)						
at 450mm c/c in the other direction are connected by a connecting						
clip (MF9). The grid is suspended with an adjustable strap hanger (MF9). The grid is suspended with an adjustable strap hanger (MF8)						
of dimensions 2Smm x 0.5mm) at 1200mm c/c on both ways from						
the structural soffit using a soffit cleat and expandable						
bolts/fasteners Nut and bolts are used to connect strap hangers to						
soffit cleats and for joining ends of channel sections together.						
3 COVE IN CEILING:						
Providing and Fixing of Cove in Gypsum Board with specifications 96.00 mtr						
same as item No.2						

4	EXTRA FOR PROVIDING VENEER WITH POLISH IN CEILING				
7	Providing and fixing 4mm thk. VENEER in ceiling over 12mm thk. commercial ply screwed(IN PLACE OF GYPBOARD) to GI ceiling sections work as item number 2 above .The work includes providing grooves as per pattern, spirit polished of approved shade on the veneer surface. Payment shall be made for the visble finished area. The work should be complete as per instructions of Architect or Engineer in charge.	98.00	sq.m.		
5	WOODEN RAFTER (2"X3") SUSPENDED CEILING				
	Providing and fixing wooden rafters made of Beech Wood of size 2"x3", suspended in false ceiling using suitable hangers/channels to provide suspended ceiling which is level & plumb. The rafters to be fixed at a regular spacing as per design / drawings & provided with spirit polish on all surfaces, complete in all respects. The length of rafters installed shall be measured for payment.	161.00	mtr		
6	WALL PANELLING (VENEER WITH POLISH):				
	Providing and fixing paneling over the existing wall made out of framework of 50 mm X 25 mm - 18 gauge section un annodised Aluminium (as per requirement) frame work @ 16" to 24" c/c vertically & horizontally. The frame work to be clad with 8.0 mm thick commercial ply and following finishigs as per drawing and instructions.				
	All exposed surfaces to be clad with teakwood moulding of size 30 mm X 12.0 mm made to shape. The work should be complete in all respects including provisions of grooves duly designed & finished. All wood to be treated with wood preservatives of approved ISI quality. All exposed teak wood shall be spirit polished with matching pigment. The rate shall include for providing groves in laminate & wood. Payments shell be made only for exposed surfaces & actual measurement at site, no payment shell be made for paneling behind furniture such as tables, Credenza, storage etc.				
a)	Panelling with 4.0MM thick veneer with polish	192.00	sq.m.		
				-	
7	ACOUSTICAL / FABRIC PANELLING				
	Providing and fixing paneling over partition made out of 12MM thick ply panels (as per size given) with 40density foam 1" thick fixed & fabric fixed neatly & firmly over it. The fabric panel shall be fixed to partition/s using suitable hardware as per instructions of the Architect / Engineer in charge. The joints between the panels shall be provided with SS/Copper finished T-profiles, complete in all respects. All exposed surfaces to be clad with teakwood moulding of size 30 mm X 12.0 mm made to shape. The work should be complete in all respects including provisions of grooves duly	25.00	sq.m.		

	designed & finished. All wood to be treated with wood preservatives of approved ISI quality. All exposed teak wood shall be spirit polished with matching pigment. The rate shall include for providing groves in laminate & wood. Payments shell be made only for exposed surfaces & actual measurement at site, no payment shell be made for paneling behind furniture such as tables, Credenza, storage etc. Basic Cost of Fabric = Rs. 300/mtr			
8	FULL HEIGHT PARTLY GLAZED WOODEN PARTITIONS & DOORS Full Height partly Glazed (with etching) & partly both side laminated Partitions: Providing & fixing partition made of 44 mm X 44 mm X 16 Gauge aluminium extruded sections frame @ 2'-0" to 2'-0" c/c vertically & horizontally. The frame shall be fixed rigidly at floor level as well as ceiling with rawl plugs. The frame work to be cladded with 8mm thick commercial ply and 1.0mm thick laminate APPROVED make in specified pattern as per interiors details on both sides. Also 1-1/2" x5/8" teak wood beading shall be provided on both sides of 8mm thk. glass with etching work as per interior details where ever specfied. The rate shall also include for providing grooves in laminate & wood.	153.00	sq.m.	
	Wherever applicable, the doors shall be a part of full height partitions & shall be provided with 35mm thick commercial block board, with laminate 1.0mm thich on both side, as per pattern & with groves as per design. 38mmx6mm thick teakwood lipping shall be provided all around the edges of the door & finished with spirit polish, complete in all respects. Basic hardware like mortice lock/dead lock/handles, hinges, door stopper shall be a part of the door & will not be paid extra,			
	Note: (i) All ply to be sprayed with anti termite and anti borer spray. (ii) Rates to include all necessary supports and as per details (iii) Measurements to be recorded up to finished false ceiling level.			
n	LOW RETCHT MOODEN DADTITION WITH LAMINATE			
9	Providing & fixing partition made of 44 mm X 44 mm X 16 Gauge aluminium extruded sections frame @ 2'-0" to 2'-0" c/c vertically & horizontally. The frame shall be fixed rigidly at floor level as well as ceiling with rawl plugs. The frame work to be cladded with 8mm thick commercial ply and 1.0mm thick laminate APPROVED make in specified pattern as per interiors details on both sides. Also 3"x5/8" teak wood section shall be provided on the exposed edges of the partitions, including provideing grove for 12mm thich glass wherever specfied. The rate shall also include for providing grooves in laminate & wood. Note: (i) All ply to be sprayed with anti termite and anti borer spray.	340.00	sq.m.	
	(ii) Rates to include all necessary supports and as per details (iii) Measurements to be recorded up to finished false ceiling level.			

10	STORAGE CABINETS			
	Providing & fixing storage cabinets, 18" deep & height as specified, made out of 19mm thick commercial plywood, including the ineer shelves & shutters. The visible external surface shall be provided with 1.0mm thick laminate of shade specified, whereas internal surface including both sides of shelves shall be provided wth balancing laminate of 0.8mm thickness.
