## TENDER FOR INTERIOR RENOVATION WORK,CCGRO DEPT,PUNE, MAHARASHTRA.

## **I-INTERIOR RENOVATION WORK OF GM'S CABIN**

	Description	Qty.	Unit	Rate	Amount
Α	PARTITIONS / PANELLING( Soild/semi glazed)				
3	FINISHING:-				
3.1	LAMINATE (Basic cost upto Rs 2200 per sheet):-	150.00	Sft		
	Approved laminate shall be of 1.5mm thick.				
	Laminate shall be fixed on plywood skins with glue having				
	grooves as shown or directed. Internal surfaces at specified places				
	shall be 1.0 mm thick as directed .				
3.2	FLUTE SHEET CHARCOAL WALL PANEL SHEET /( Basic	500.00	Sft		
	Cost-3100 /-Sheet)	300.00	Sit		
	Providing and fixing Flute/charcoal Sheet size 4 ' X 8' ( shall be				
	anti Bacterial ,Anti scatch and have UV colour Fastness for interior				
	panelling as per design.				
3.3	ACRYLIC SOLID SURFACE (Basic cost upto for 6mm thick	130.00	Sft		
	of Rs. 1200 / Sq. Fts )				
	Further, Acrylic soild surface wherever mentioned in the BOQ (For				
	items of Panelling, Reception Counter, Furniture elements etc)				
	shall be high end, of desired and approved color and adhering to				
	the BOQ specifications. Corian thickness shall be 6mm thk for				
	vertical surfaces & fascias and 6mm thk for horizontal surfaces				
	shall be provided with polish complete in all respect.				
3.4	MIRROR PANELLING(Basic cost upto Rs70/sqft)	10.00	Sft		
<u> </u>	Providing & Fixing Mirror Panelling using 6 mm thick mirror of	20.00	0.0		
	approved make over 19mm thick commercial board backing. The				
	mirror to be fixed with T.W beading of size 12.5mm X 19mm,				
	finished with melamine polish complete as per the instructions of				
	FIC (FOR TOILETS)				
3.5	S S PROFILE PATTI	90.00	Rft		
	Providing and fixing Metal 12 mm width T /U / L / plain profile				
	finish as per Design				
3.6	LACQUERED GLASS (Basic cost upto Rs 300.00Per Sqft)	15.00	Sft		
			J.C		
	Providing and fixing Lacquered glass in panelling				
3.7	Providing & fixing approved wallpaper over the Gypsum surface	100.00	Sft		
	(Basic rate of Rs. 210/ Sq. Fts)				
_	NOTE:				
A	All exposed ends shall have 6mm Corian Bidding  Laminate shall be fixed on plywood skins with glue having		1		
В					
	grooves as shown or directed. Internal surfaces at specified places				
	shall be 0.8 mm thick as irected by Bank. The rates quoted for the				
	items of partions & paneling shall be inclusive of providing & fixing				
	M.S. plate & brackets over & above the aluminium frame work as				
	directed & wherever instructed for mounting the TV units &				
<u> </u>	screens etc complete				l

_					
С	IMPORTANT NOTE ON THE DESIGN REQUIREMENTS APPLICABLE		1		
	IN CASE OF ALL THE ITEMS OF PARTITIONS & PANELLING: - The		1		
1	design & the elevation of the various items under the heads:		1		
	Partition & Panelling shall be at the complete discretion &				
	directions / instructions of the Engineer in charge on site.		1		
	Wherever instructed & directed, the rate shall include providing &				
	fixing additional 12/6 mm thk plywood backing over and above the				
	303 MR grade Commercial plywood so provided in the items of				
	partition / panelling to form raised panel design at regular				
	intervals as directed and to be finished with high end approved 4.0				
	mm thk veneer with high end melamine polish (proportion of gloss				
	and matt as directed) with uniform shade & texture. Incase of				
	9mm thk plywood used instead of 6mm thk plywood for the raised				
	panels for the items of Partition or Paneling works, the difference				
	between the cost of 9mm thk plywood and 6mm thk plywood for				
	the actual quantity of plywood used for the said partition or				
	panelling items shall be measunate. Rate sha				
D	The level difference between the said raised panels and recessed				
	panels shall be finished with approved designer moulding to be		1		
1	finished with high end (proportion of gloss and matt as directed)		1		
	melamine polish and shall also include designer inlays to be		1		
	finished with high end veneer with high end melamine polish,		1		
	pattas & bands at various levels etc in veneer and melamine polish		1		
	·				
	and combinations of raised and recessed panels with inlays etc		1		
	complete to the complete satisfaction of the Bank and Engineer in		1		
	charge				
F	Further, Corian wherever mentioned in the BOQ (For items of		İ		
1 .	Panelling, Reception Counter, Furniture elements etc) shall be high				
	end, of desired and approved color and adhering to the BOQ		1		
			1		
	specifications. Corian thickness shall be 6mm thk for vertical				
	surfaces & fascias and 12mm thk for horizontal surfaces shall be				
	provided and with a basic rate of Rs. 1200 / Sq. Fts plus taxes		1		
	(GST) for 6mm thk Corian and Rs. 1500 / Sq. Fts plus taxes (GST)				
	for 12 mm thk Corian.				
	All other finishing Material shall be fixed as now manufactured		-		
G	All other finishing Material shall be fixed as per manufacturars		İ	1	ĺ
	specifications.				
4	FALSE CEILING				
4	FALSE CEILING General:				
4	FALSE CEILING General: The filler, paper tapes, finishes and primers suitable for Gypsum				
4	FALSE CEILING General:				
4	FALSE CEILING General: The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.				
4	FALSE CEILING General: The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum. Framework grid and suspenders shall be fixed to avoid fouling				
4	FALSE CEILING General: The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.				
4	FALSE CEILING General: The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum. Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc				
4	FALSE CEILING General: The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum. Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum				
4	FALSE CEILING General: The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum. Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have				
4	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.				
4	FALSE CEILING General: The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc.				
4	FALSE CEILING General: The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM				
4.1	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make. And approved by the Bank.	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make. And approved by the Bank  GYPSUM BOARD	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make And approved by the Bank  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make And approved by the Bank  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make. And approved by the Bank  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid,	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make. And approved by the Bank  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make. And approved by the Bank.  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc.  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make And approved by the Bank  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make. And approved by the Bank.  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make And approved by the Bank  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc.  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make And approved by the Bank GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange of 15mm each at 4'-0" centre to centre.	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make And approved by the Bank  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange of 15mm each at 4'-0" centre to centre.  GI Hanger of size 1"x1", 0.5mm thk. A 4'-0" centre to centre	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make And approved by the Bank GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange of 15mm each at 4'-0" centre to centre.  GI Hanger of size 1"x1", 0.5mm thk. A 4'-0" centre to centre distance.	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc.  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make And approved by the Bank GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange of 15mm each at 4'-0" centre to centre.  GI Hanger of size 1"x1", 0.5mm thk. A 4'-0" centre to centre distance.  GI Cleat and Steel Expansion Fasteners.	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM MARE And approved by the Bank GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange of 15mm each at 4'-0" centre to centre.  GI Hanger of size 1"x1", 0.5mm thk. A 4'-0" centre to centre distance.  GI Cleat and Steel Expansion Fasteners.  Ceiling section of 0.5mm thickness having curled wedge of 51.5	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make And approved by the Bank GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange of 15mm each at 4'-0" centre to centre.  GI Hanger of size 1"x1", 0.5mm thk. A 4'-0" centre to centre distance.  GI Cleat and Steel Expansion Fasteners.  Ceiling section of 0.5mm thickness having curled wedge of 51.5 mm and two flanges of 26mm each with lips of 10.5mm at	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make And approved by the Bank GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange of 15mm each at 4'-0" centre to centre.  GI Hanger of size 1"x1", 0.5mm thk. A 4'-0" centre to centre distance.  GI Cleat and Steel Expansion Fasteners.  Ceiling section of 0.5mm thickness having curled wedge of 51.5 mm and two flanges of 26mm each with lips of 10.5mm at 450mm center to center. Connecting clips & 12.5 mm dry wall	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make. And approved by the Rank.  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange of 15mm each at 4'-0" centre to centre.  GI Hanger of size 1"x1", 0.5mm thk. A 4'-0" centre to centre distance.  GI Cleat and Steel Expansion Fasteners.  Ceiling section of 0.5mm thickness having curled wedge of 51.5 mm and two flanges of 26mm each with lips of 10.5mm at 450mm center to center. Connecting clips & 12.5 mm dry wall screws at 230 mm center to center.	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make. And approved by the Bank.  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to IS: 2095: :1982. The metallic grid shall consists of the following:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange of 15mm each at 4'-0" centre to centre.  GI Hanger of size 1"x1", 0.5mm thk. A 4'-0" centre to centre distance.  GI Cleat and Steel Expansion Fasteners.  Ceiling section of 0.5mm thickness having curled wedge of 51.5 mm and two flanges of 26mm each with lips of 10.5mm at 450mm center to center. Connecting clips & 12.5 mm dry wall screws at 230 mm center to center.  The metallic grid shall be installed as follows:	100.00	Sft		
	FALSE CEILING  General:  The filler, paper tapes, finishes and primers suitable for Gypsum boards, shall be as per recommended practises of India Gypsum.  Framework grid and suspenders shall be fixed to avoid fouling with services such as ducting, sprinklers, electricals fixtures, etc  T.W. framing may be allowed in certain areas for the Gypsum Board ceiling with the approval of the Bank. The same should have three coats of fire resistant paint.  Note: All the hardware such as fastners, hangers, suspenders, etc. required for erection of the false ceiling shall be of INDIA GYPSUM make. And approved by the Bank.  GYPSUM BOARD  Metal frame False Ceiling of 12 mm thk. Gypsum Board including vertical drop panels.  Providing and Fixing 12 mm Thk. Gypsum board on metallic grid, conforming to Is: 2095: :1982. The metallic grid shall consists of the followina:  GI Perimeter channels of size 27mm and 0.5mm thk. having one flange of 20mm and another flange of 30mm.  GI intermediate channel of size 45mm 0.5mm thk. With two flange of 15mm each at 4'-0" centre to centre.  GI Hanger of size 1"x1", 0.5mm thk. A 4'-0" centre to centre distance.  GI Cleat and Steel Expansion Fasteners.  Ceiling section of 0.5mm thickness having curled wedge of 51.5 mm and two flanges of 26mm each with lips of 10.5mm at 450mm center to center.
