12. CLARIFICATION/AMENDMENTS AND CORRIGENDUM:

Bidder requiring any clarification of the bidding document may not if any us in writing at the address/bye-mail given in the NIT within the date/ time mentioned.

The clarifications to the queries received or amendments in the tender will be posted on the Bank's website and e-tender portal as a corrigendum/Addendum. No individual communication will be conveyed to the Bidders. The interested parties/ Bidders are advised to check the above website regularly till the date of submission of Bid document and ensure that clarifications/amendments issued, if any, have been taken into consideration before submitting the Bid. Such amendments/clarifications, if any, issued by the Bank will be binding on the participating Bidders. Bank will not take any responsibility for any such omissions by the Bidder. Bank, at its own discretion, may extend the deadline for submission of Bids in order to allow prospective Bidders a reasonable time to prepare the Bid, for taking the amendment into account.

Bank/ SBI reserve the right to amend, rescind or reissue the tender, at any time prior to the deadline for submission of Bids.

No request for change in commercial/legal terms and conditions, other than what has been mentioned in the tender or any addenda/corrigenda or clarifications issued in connection there to, will be entertained and queries in this regard, therefore will not be entertained.

Queries received after the scheduled date and time will not be responded/actedupon.

13. Bank's RIGHT TO ACCEPT ANY BID AND TO REJECT ANY OR ALL BIDS

Bank/ SBI reserves the right to accept or reject any Bid in part or in full or to cancel the Bidding process and reject all Bids at any time prior to award of the contract, without incurring any liability to the affected Bidder or Bidders or any obligation to inform the affected Bidder or Bidders of the grounds for the Bank's action.

The acceptance of a tender rests with the Competent Authority, who does not bind himself to accept the lowest tender and reserves to himself the authority to reject any or all of the tenders received, without assigning any reasons. All tenders in which any of the prescribed conditions are not fulfilled, or are incomplete in any respect are liable to be rejected.

The notification of award will constitute the formation of the Contract. The selected Bidder should convey acceptance of the award of contract by returning duly signed and stamped duplicate copy of the PO within 15 days of receipt of the communication and to enter into an agreement with the Bank.

OPENING AND EVALUATION OF BIDS

The online Bids will be opened at the office address of SBI mentioned in the NIT. Representatives of Bidder may be present during opening of Bids. However, Bids would be opened even in the absence of any or all the bidder's representatives.

In the two bid system, the technical bids will be opened at the scheduled time mentioned in the NIT. Incase, if the date of opening is declared as non working day or Holiday, the bids will be opened on the next working day. The price bid of the qualified vendors will be opened on the same day or on a subsequent date which will be intimated to the bidders.

VALIDITY OF BID

Bids shall remain valid and open for acceptance for a period stipulated in this document from the date of opening of price bid. If the Bidder withdraws his/her offer during the validity period or makes modifications in his/her original offer, which are not acceptable to the Bank, without prejudice to any other right or remedy, the Bank shall be at liberty of or feit the EMD.

PRELIMINARY EXAMINATION

SBI will examine the Bids to determine whether they are complete, on required formats & accompanied by supporting Documents and the Bids are conforming to all the terms and conditions of the Bidding Document without any deviations and are generally in order.

If a Bid is not conforming to the terms and conditions, it will be rejected. However, SBI will have right to demand submission of more information as required, if any of the document is partly submitted. If the bidder does not respond within the stipulated time, SBI will reject or disqualify the bid.

TECHNICAL EVALUATION

Only those Bidders and Bids who have been found to be in conformity of the eligibility terms and conditions during the preliminary evaluation would be taken up for further detailed evaluation. Those Bids who do not qualify the eligibility criteria and all terms during preliminary examination will not be taken up for further revaluation.

During evaluation of bids, the SBI may, at its discretion ask the bidders for clarification of of the bidders for clarification of its bid. Therequest for clarification shall be inwriting and no change in prices or substance of the bidder shall be sought, offered or permitted. No post bid clarification at the initiative of the bidder shall be entertained.

The tenders must be unconditional. Conditional tenders leading to unknown/indefiniteliability may be summarily rejected.

17. EVALUATION OF PRICE BIDS AND FINALIZATION

Only those Bidders who qualify in Technical evaluation would be shortlisted and the online price bid submitted by the bidder will be opened.

The L1 Bidder will be selected on the basis of net total of the price evaluation as quoted in the online bidding or Reverse Auction (if conducted).

The process of online rebidding amongst the two or more contractors offerings a merates shall continue till L1 bidder is discovered. If required, SBI shall conduct reverse auction to discover the L1 bidder.

Incase, any of such contractors or all contractors (who have quoted same tender amount in the initial bidding or subsequent bidding) refuse to submit revised offer, it shall be treated as "Withdrawal of tender" by the Contractor before acceptance by SBI and the EMD of such contractors shall be for feited and they shall not be allowed to participate in the redering process for the work.

 - ii. Variation exceeding 25%: The items of work executed in relation to variation exceeding 25% shall be paid on the basis of provisions of clause 21(e) hereof

19.0 Works to be measured

The Architect/Consultant may from time to time intimate to the contractor that he required the work to be measured and the contractor shall forthwith attend or send aqualifiedrepresentativetoassisttheArchitectintakingsuchmeasurementsandcalculation and to furnish all particulars or to give all assistance required by any of them. Such measurements shall betaken in accordance with the Mode of measurements detailed in the specifications. The representative of the Architect/Consultant shall take joint measurements with the contractor's representative and the measurements shall be entered in the measurement book. The contractor or his authorized representative shall sign all the pages of the measurement book in which the measurements have been recorded in token of his acceptance. All the corrections shall be duly attested by both representatives. No over writings shall be made in the M book. Should the contractor not attend or neglect or omitted epute his representative to take measurements then the measurements recorded by the representative of the Architect/consultant shall be final. All authorized extra work, omissions and all variations made shall be included in such measurements.

20.0 Variations:

No alteration, omission or variation ordered in writing by the Architect/Consultant shall vitiate the contract.

In case the SBI/Architect/Consultant thinks proper at any time during the progress of

works to make any alteration in, or additions to or omission from the works or any alteration in the kind or quality of the materials to be used there in, the Architect/Consultant shall give notice thereof in writing to the contractor or shall confirm in writing within seven days of giving such oral instructions the contractor shall alter to, add to, or omit from as the case may be in accordance with such notice but the contractor shall not do any work extra to or make any alteration or additions to or omissions from the works or any deviation from any of the provisions of the contract, stipulations, specifications or contract drawings without previous consent in writing of the Architect/Consultant and the value of such extras, alterations, additions or omissions shall in all cases be determined by the Architect/Consultant and the same shall be added to or deducted from the contract value, as the case may be.

21.0 Valuation of Variations

No claim for an extra shall be allowed unless it shall have been executed under the authority of the Architect/Consultant with the concurrence of the SBI as here in mentioned. Any such extra is here in referred to as authorized extra and shall be made in accordance with the following provisions.

- a i) The net rates or prices in the contract shall determine the valuation of the extra work where such extra work is of similar character and executed under similar conditions as the work priced herein.
- ii) Rates for all items, wherever possible should be derived out of the rates given in the priced BOQ.
- b The net prices of the original tender shall determine the value of the items omitted, provided if omissions do not vary the conditions under which any remaining items of works are carried out, otherwise the prices for the same shall be valued under sub clause(c) here under.
- Where the extra works are not of similar character and/or executed under similar conditions as aforesaid or where the omissions vary the conditions under which any remaining items or works are carried out, then the contractor shall within 7days of the receipt of the letter of acceptance inform the Architect/Consultant of the rate which he intends to charge for such items of work, duly supported byanalysisoftherateorratesclaimedandtheArchitect/Consultantshallfixsuchrate or prices as in the circumstances in his opinion are reasonable and proper, based on the market rate.
- Where extra work cannot be properly measured or valued the contractor shall be allowed day work prices at the net rates stated in the tender of the BOQ or, if not, so stated then in accordance with the local day work rates and wages for the district; provided that in either case, vouchers specifying the daily time (and ifrequiredbytheArchitect/Consultant)theworkman'snameandmaterialsemployedb edeliveredforverificationstotheArchitect/Consultantatorbeforetheendoftheweekfo llowingthatinwhichtheworkhasbeenexecuted.

flt is further clarified that for all such authorized extra items where rates cannot be derived from the tender, the contractor shall submit rates duly supported by rate analysis worked on the "market rate basis" for material, labour, hire/running charges of equipment and wastage setcplus 15% towards establishment charges, contractor's overheads and profit. Such items shall not be eligible for escalation.

22.0 Final Measurement

The measurement and valuation in respect of the contract shall be completed within six months of the virtual completion of the work.

Virtual Completion Certificate (VCC)

On successful completion of entire works covered by the contract to the full satisfaction of the SBI, the contractor shall ensure that the following works have been completed to the satisfaction of the SBI.

- a. Clear the site of all scaffolding, wiring, pipes, surplus materials, contractor's labour, equipment and machinery.
- b. Demolish, dismantle and remove the contractor's site office, temporary works, structures including labour sheds/camps and constructions and other items and things whatsoever brought upon or erected at the site or any land allotted to the contractor by the SBI and not incorporated in the permanent works.
- c. Remove all rubbish, debris etc from the site and the land allotted to the contractor by the SBI and shall clear, level and dress, compact the site as required by the SBI.
- d. Shall put the SBI in undisputed custody and possession of the site and all land allotted by the SBI.
- e. Shall hand over the work in a peaceful manner to the SBI.
- f. AII defects/imperfections have been attended and rectified as pointed out by the SBI to the full satisfaction of SBI.

Upon the satisfactory fulfillment by the contractor as stated above, the contractorshallbeentitledtoapplytotheArchitect/Consultantforthecertificate.IftheArchitect/Consultantissatisfiedofthecompletionofthework,relativetowhichthecompletioncertificate hasbeensought,theArchitect/Consultantshallwithinfourteen(14) days of the receipt of the application for virtual completion certificate, issue a VCC in respect of the work for which the VCC has been applied.

This issuance of a VCC shall be without prejudice to the SBI's rights and contractor'sliabilitiesunderthecontractincludingthecontractor'sliabilityfordefectsliabilityp eriodnorshalltheissuanceofVCCinrespectoftheworksorworkatanysitebeconstruedas a waiver of any right or claim of the SBI against the contractor in respect of works or work at the site and in respect of which the VCC has been issued.

24.0 Work by other agencies

The SBI/Architect/Consultant reserves the rights to use premises and any portion of the site for execution of any work not included in the scope of this contract which it may

desire to have carried out by other persons simultaneously and the contractor shall notonlyallowbutalsoextendreasonablefacilitiesfortheexecutionofsuchwork. The contractorhowevershallnotberequired to provide any plantormaterial for the execution of such work except by special arrangement with the SBI. Such work shall be carried out in such manners not to impede the progress of the works included in the contract.

Insurance of Works

Withoutlimitinghisobligations and responsibilities under the contract the contractor shall insure in the joint names of the SBI and the contractor against all loss or damages whatever cause arising other than the excepted risks, forwhichheisresponsibleunderthetermsofcontractandinsuchamannerthatthe **SBI** and contractor are covered for the period stipulated in clause 28 of GCCandarealsocoveredduringtheperiodofmaintenanceforlossordamagearisingfro macause,occurringpriortothecommencementoftheperiodofmaintenance and for any loss or damage occasioned by the contractor in the course of any operations carried out by him for the purpose of complying with his obligations under clause.

- a. Theworksforthetimebeingexecuted to the estimated current Contract value thereof, or such additional sum as may be specified together with the materials for incorporation in the works at the irreplacement value.
- b. The constructional plantand other things brought onto the site by the contractor to the replacement value of such constructional plantand other things.
- c. SuchinsuranceshallbeeffectedwithaninsurerandintermsapprovedbytheSBIwhich approvalshallnotbeunreasonablywithheldandthecontractorshallwheneverrequir edproducetotheArchitect/Consultantthepolicyofinsuranceandthereceiptsforpay mentofthecurrentpremiums.

Damage to persons and property

The contractors hall, except if and so far as the contract provides otherwise indemnify the SBI against all losses and claims in respect of injuries or damages to any person or material or physical damage to any property what so ever which may arise out of or in consequence of the execution and maintenance of the

worksandagainstallclaimsproceedings, damages, costs, charges and expenses what so ever inr

espectoforinrelationtheretoexceptanycompensationofdamagesfororwithrespectto:

- a. The permanent use or occupation of land by or any part thereof.
- b. The right of SBI to execute the works or any part thereof, on, over, under, in or through any lands.
- c. Lnjuries or damages to persons or properties which are unavoidable result of the execution or maintenance of the works in accordance with the contract.
- d. InjuriesordamagetopersonsorpropertyresultingfromanyactorneglectoftheSBI, their agents, employeesorothercontractors not being employed by the contractor or in respect of any claims, proceedings, damages, costs, charges and expenses in respect thereofor in relation theretoor where the injury or damage was contributed to by the contractor, his ser vants or agents such part of the compensation as may be just and equitable having regard to the extent of the responsibility of the SBI, their employees, or agents or other contractors for the damage or injury.

Contractor to indemnify SBI

The contractor shall indemnify the SBI against all claims, proceedings, damages, costs, charges and expenses in respect of the matters referred to in the provision subclause26.2ofthisclause.

Contractor's superintendence

The contractor shall fully indemnify and keep indemnified the SBI against any action, claim, or proceeding relating to in fringement or use of any patent or design or any alleged patent or design rights and shall pay any royalties which may be payable in respect of any article or part thereof included in the contract. In the event of any claim made under or action brought against SBI in respect of such matters as aforesaid the contractor shall be immediately notified thereof and the contractor shall be at liberty, at his own expenses to settle any dispute or to conduct any litigation that may arise there from, provided that the contractor shall not be liable to indemnify the SBI if the in fringement of the patent or design or any alleged patent or design right is the direct result of an order passed by the Architect/Consultant in this behalf.

Third Party Insurance

Before commencing the execution of the work the contractor but without limitinghisobligations and responsibilities under clause 26.0 of GCC shall insure against his liability for any material or physical damage, loss, or injury which may occur to any property including that of SBI, or to any person, including any employee of the SBI, by or arising out of the execution of the works or in the carrying out of the contract, otherwise than due to the matters referred to in the provision to clause 26.0 thereof.

Minimum Amount of Third Party Insurance

Such in surance shall be affected with an insurer and in terms approved by the SBI which approvals hall not be reasonably with held and for at least the amount stated below. The contractor shall, whene verrequired, produce to the Architect/Consultant the policy or policies of insurance cover and receipts for payment of the current premiums.

Theminimuminsurancecoverforphysical property, in jury, and death is Rs. 5.0 lacs peroccurrence ewith the number of occurrences limited to four. After each occurrence contractor will pay additional premium necessary to make in surance valid for four occurrences always.

Accident or Injury to Workmen

The SBI shall not be liable for or in respect of any damages or compensation payable at law in respector consequence of accident injury in any or anyworkmenorotherpersonintheemploymentofthecontractororanysubcontractor, save and except an accidentor injury resulting from any actor default of the SBI or their agents, or employees. The contractor shall indemnify and keep in demnified SBI against all such damages and compensation, save and except as aforesaid and against all claims, proceedings, costs, charges and expenses whatsoever in respect there of or in relation there to.

Insuranceagainstaccidentsetctoworkmen

The contractor shall insure against such liability with an insurer approved by theSBI during the whole of the time any person employed by him on the works and shall, when required, produce to the architect/consultant such policy of insuranceandreceiptforpayment of the current premium. Provided always that, in respect of any persons employed by any sub-contractor the contractor's obligation to insure as a foresaid under this sub-clause shall be satisfied if the sub-contractor shall have insured against the liability in respect of such persons in such manner that SBI is indemnified under the policy but the contractor shall require such sub-contractor to produce to the Architec/Consultant when required such policy of insurance and the receipt for the payment of the current premium.

RemedyonContractor'sfailuretoinsure

Ifthecontractorfailstoeffectandkeepinforcetheinsurancereferredtoaboveor any other insurance which he may be required to effect under the terms of contract, then and in any such case the SBI may effect and keepinforce any such insurance and pay such premium or premiums as may be necessary for that purpose and from time to time deduct the amount so paid by the SBI as a foresaid and also deduct 15% of contract value from any amount due or which may be comedue to the contractor, or recover the same as debt from the contractor.

Without prejudice to the other rights of the SBI against contractors, in respect of such default, the Bank shall be entitled to deduct from any sums payable to thecontractor the amount ofany damages costs, charges, and other expenses paidby the SBIandwhicharepayablebythecontractorsunderthisclause. The contractor shall upon settlement by the insurer of any claim made against theinsurerpursuantto apolicy taken under this clause, proceed with due diligence to rebuild or repair the works destroyed or

damaged. In this event all the moniesreceived from the insurer in respect of such damages hall be paid to the contractor and the contractor shall not be entitled to any further payment in respect of the expenditure incurred for rebuilding or repairing of the materials or goods destroyed or damaged.

26.0CommencementofWorks

The date of commencement of the work will be reckoned as the recorded date of handing oversite by the SBI or 15 days from the date of issue of Letter of Acceptance of Bank, which ever is later.

27.0Timeforcompletion

Timeistheessenceofthecontractandshallbestrictlyobservedbythecontractor. The entire work shall be completed within a period as specified in theNIT calendar months from the date of commencement. Ifrequired in the contractor as directed by the Architect/Consultant, the contractor shall complete certainportions ofwork before completion of the entire work. However the completiondate shall be reckoned as the date by which the whole work is completed as perthetermsofthecontract.

28.0ExtensionofTime

If.in the ofthe Architect/Consultant,theworkbedelayed for opinion reasonsbeyondthecontrolofthecontractor, the Architect/Consultant may submit are commenda fair and SBI to grant a reasonable extension for completion of work as per the terms of contract. If the contractor needs an extension of time for the contract of the cocompletionofworkorifthecompletionofworkislikelyto be delayed for any reasons beyond the due date of completion stipulated as inthecontract, the contractors hall apply to the SBI through the Architect/Consultantin writing at least before of scheduled the expiry the whileapplyingforextensionoftimeheshallfurnishthereasonsindetailandhisjustificationifany,f orthedelays. Thearchitect/consultantshall submittheir recommendations the SBI in the prescribed format for granting extension of time. While granting extension of time the contractor shall be informed the periodextended time which will qualify for levy of liquidated damages. For the balanceperiod in excess of original stipulated period and duly sanctionedextension

oftimebytheSBItheprovisionofliquidateddamagesasstatedunderclause9ofGCC shall become applicable. Further contract shall remain in force even for theperiod beyond the due date of completion irrespective whether the extension isgrantedornot.

29.0Rateofprogress

Whole of the materials, plant and labour to be provided by the contractor and themode, manner and speed of execution and maintenance of the works are to be of a kind and conducted in a manner to the satisfaction of the Architec/Consultant. Should the rate of progress of the work or any part thereof be at any time be in the opinion of the Architec/Consultant too slow to ensure the completion of the whole of the work by the prescribed time or extended time for completion the Architect/Consultant shall the reupon takes uch steps as considered necessary

by the Architec/Consultant to expedite progress so as tocompletethewoksbytheprescribedtimeorextendedtime. Such communications from the Architect/Consultant neither shall relieve the contractor from fulfilling obligations under the contract nor shall he be entitled to raise any claims arising out of such directions.

30.0Workduringnightsandholidays

Subject to any provision to the contrary contained in the contract no permanentwork shall save as herein provided be carried on during the night or on holidayswithoutthe permission in writing of the Architect/Consultant, save when the workis unavoidable or absolutely necessary for the saving of life property thesafetyoftheworkinwhichcasethecontractorshallimmediatelyadvisetheArchitect/Consulta nt. However the provision of the clauses hall not be applicable in ofanyworkwhichbecomesessentialtocarry by rotaryordoubleshifts in order to achieve the progress the part being technically required and continued with the prior approval of the Architect/consultant at no extracosttotheSBI.

Allworkatnightafterobtainingapprovalfromcompetentauthoritiesshallbecarriedoutwithoutu nreasonablenoiseanddisturbance.

31.0Nocompensationforrestrictionsofwork

Ifatany time afteracceptance of the tender SBIshalldecide to abandon or reduce the scope of work for any reason whatsoever and hence not require thewhole or any part of the work to be carried out, the Architect/Consultant shall givenoticeinwritingtothateffecttothecontractorandthecontractorshallactaccordingly in the matter. The contractor shall have no claim to any payment of compensation or otherwise whatsoever, on account of any profit or advantagewhich he might have derived from the of the work but which he execution fully did not derive in consequence of the foreclosure of the whole or part of the work.

Provided that the contractor shall be paid the chargeson the cartage only ofmaterials actually and bona fide brought to the site of the work by the contractorand rendered surplus as a result of the abandonment, curtailment of the work orany portion thereof and then taken back by the contractor, provided however thatthe Architect/Consultant shall have in such cases the option of taking over all oranysuchmaterialsattheir purchase price or all calculated and the contractor of the work or any portion thereof and then taken back by the contractor, provided however that the Architect/Consultant shall have in such cases the option of taking over all or any such materials at their purchase price or all calculated and the contractor of the work by the contractor and rendered surplus as a result of the abandonment, curtailment of the work or any portion thereof and then taken back by the contractor, provided however that the Architect/Consultant shall have in such cases the option of taking over all or any such cases.

In case of such stores having been issued from SBI stores and returned by the contractor to stores, credits hall be given to him at the rates not exceeding those at which were originally issued to the contractor aftertaking into consideration and deduction for claims on account of any deterioration or damage while in the custody of the contractor and in this respect the decision of Architect/Consultants hall be final.

Suspensionofwork

- a. Onaccountanydefaultonthepartofthecontractor,

or

b. Forproperexecution of the works or part thereof for reasons other than the default of the contractor,

or

c)Forsafetyoftheworksorpartthereof.

The contractor shall, during such suspension, properly protect and secure theworkstotheextentnecessaryandcarryouttheinstructionsgiveninthatbehalfbytheA rchitect/Consultant.

ii. If the suspension is ordered for reasons (b) and (c) in sub-Para (i) above:

The contractors hall be entitled to an extension of time equal to the period of every such suspension. No compensation what so ever shall be paid on this account.

33.0Actionwhenthewholesecuritydepositisforfeited

Inanycaseinwhichunderanyclauseorclausesofthiscontract, the Contractorshall have rendered hims elfliable to paycompensation amounting to the whole of his security deposit the Architect/Consultant shall have the power to adopt any of the following course as they may deem be struited to the interest of the SBI.

- a. To rescind the contract (of which rescission notice in writing to the contractor by the Architect/Consultantshall be conclusive evidence) and in which case the security deposit of the contractor shall be for feited and be absolutely at the disposal of SBI.
- b. ToemploylabourpaidbytheSBIandtosupplymaterialstocarryoutthework,or any part of the work, debiting the contractor with the cost of the labour andmaterials (the cost of such labour and materials as worked out by the Architect/Consultant shall be final and conclusive against the contractor) and crediting himwiththevalueoftheworkdone,inallrespectsinthesamemannerandatthesameman nerandatthesameratesasifithadbeencarriedoutbythecontractorunderthetermsofthis contractthecertificateofArchitect/Consultantastothevalueofworkdoneshallbefinala ndconclusiveagainstthecontractor.
- c. To measure up the workofthe contractor, and to take such part thereofas shallbe unexecuted, outofhis hands, and to give it to another contractor to completein which case any expenses which may be incurred in excess of the sum whichwould have been paid

totheoriginalcontractor, if the wholework had been executed by him (of the amount of which excess the certificates in writing of the Architects/ Consultant shall be final and conclusive) shall be borne by original contractor and may be deducted from any money due to him by SBI under the contract or otherwise, or from his security deposit or the proceeds of sale thereof, or sufficient part thereof.

In the event of any of above courses being adopted by the SBI the contractor shallhave no claim to compensation for any loss sustained by him by reasons of hishaving purchased or procured any material or entered into any engagements ormake any advances on account of, or with a view to the execution of the work orthe performance of the contract and in case the contract shall be rescinded undertheprovision aforesaid, the contractors hall not be entitled to recover or to be paid any sumor anywork thereto for actually

performedunderthiscontract,unless,anduntiltheArchitect/Consultantwillhavecertified inwritingtheperformance of such work and the value payable in respect thereof, and he shallonlybeentitledtobepaidthevalue socertified.

Owner's Rightto Terminate the Contract

If the contractor being an individual or afirm commitany 'Act of Insolvency' or shall be adjusted insolvent being incorporated company an anorderforcompulsorywindingupvoluntarilyorsubjecttothesupervisionofGovernmentandof the Official Assignee of the liquidator in such acts of insolven cyorwinding upshall be unable within sevendaysafternoticetohimtodo so,to show to thereasonable satisfactionofthe Architect/Consultant thatheis able to carry out and fulfil the contract, and to give security therefore if sorequired by the Architect/Consultant.

Or

If the contractor (whether an individual firm or incorporated Company) shall sufferexecution

to be issued or shall suffer any payment under this contract to be attached by or on behalf of any of the creditors of the contractor.

Or

shallassign or sublet this contract without the consentinwriting of the SBI through the Architect/Consultantor shall charge or encumber this contractor any payment due to which may be comedue to the contractor the reunder.

a. Hasabandonedthecontract:

Or

b. Has failed to commence the works, or has without any lawful excuse under theseconditions suspended theprogress of the works for 14 days after receiving from the SBI through the Architect/Consultant written notice to proceed,

Or

c. Has failed to proceed with the works with such diligence and failed to make suchdue progress as would enable the works to be completed within the time agreedupon, or has failed to remove the materials from the site or topull down and replace w orkwithinsevendaysafterwrittennoticefromtheSBIthroughtheArchitect/ that the said materials condemned and rejected were the Architect/Consultantunder these conditions; or has neglected or failed persistently to observeandperformalloranyoftheacts, mattersorthings by this contract to be observed an dperformedbythecontractorforsevendaysafterwrittennoticeshallhavebeengivento the observe contractor to or performthe same orhas tothedetrimentofgoodworkmanshiporindefianceoftheSBl'sorArchitect's/Consultant' s instructions to the contrary subject any part of the contract. Then and in any of said cases the SBI and or the Architect/Consultant, may notwithstanding any previous waiver, after giving seven days notice in writing to the contractor, determine the but without thereby affecting the powers oftheSBI Architect/Consultant or the obligation and liabilities of the contractor thewhole of which shall continue in force as fully as if the contract had not been sodetermined and as if the works subsequently had been executed by or on behalf ofthecontractor.And,furthertheSBIthroughtheArchitect/Consultant,theiragentsorem ployeesmay enteruponand takepossessionoftheworkandall plants, tools, scaffoldings, materials. machineries sheds. lying upon the premises theadjoininglandsorroads, use the same by means of their own employees or work meninca rrying on and completing the work or by engaging any other contractors or persons to completing the work of the contractors oetetheworkandthecontractorshallnotinanywasinterrupt or do any act, matter or thing to prevent or hinder such other contractor orotherpersonsemployed for completing andfinishing orusing thematerials and plantfortheworks.

When the works shall be completed or as soon thereafter as convenient the SBI orthe Architect/Consultant shall give a notice in writing to the contractor to remove hissurplus materials and plants and should the contractor fail to do so within 14 daysafterreceiptthereofbyhimtheSBIsellthesamebypublicauctionafterduepublication and shall adjust the amount realized by such auction. The contractorshall have no right to question any of the act of the SBI incidental to the sale of thematerials etc.

35.0CertificateofPayment

ThecontractorshallbeentitledunderthecertificatestobeissuedbytheArchitect/ Consultant to the contractor within 10 working days from the date ofcertificate to the payment from SBI from time to time. The SBI shall recover thestatutoryrecoveries and other dues including the retention amount from the certificat eofpayment.

ProvidedalwaysthattheissueofanycertificatebytheArchitect/Consultantduring the progress of works or completion shall not have effect as certificate of of satisfaction or relieve the contractor from his liability under clause

The Architect/Consultantshall have power towithhold the certificate

if the work or any part thereof is not carried out to their satisfaction.

The Architect/Consultant may by any certificate make any corrections required inpreviouscertificate.

The SBI shall modify the certificate of payments is sued by the Architect/Consultant from time to time while making the payment.

The contractor shallsubmit interim bills only after taking actualmeasurementsandproperlyrecordedintheMeasurementbook(M.B).

The contractorshall not submit interimbills when the approximate valueofwork doneby him is less than amount specified in the NITand the minimum interval betweentwosuchbillsshallbeone month.

The finalbillmay be submittedbycontractorwithina period of one month from the date of virtual completion and Architect/Consultantshall is suethecertificate of payment within a period of two months. The SBI shall pay the amount within aperiod of three months from the date of issue of certificate provided there is no dispute in respector frates and quantities.

The contractors hall submit the interimbills in the prescribed format with all details.

TECHNICAL SPECIFICATIONS

EXECUTIONOFELECTRICALWORKS:

1TheContractorshallcarryoutandcompletetheElectricalworkasperstandardspecifications /as stipulated in this contractand relevant IS recommendations in coordinationwith otheragencies like Interior,ACand civilcontractors and to the satisfactionofthe Bank/SBI.WithapprovalofBankwillissuefurtherwritteninstructions,detaileddirectionsandexplanat ions with respect to the specifications, quality or quantity of works or the addition oromissionorsubstitutionofany work.

.2 **METERBOARD:**

The Main DB/Meter Board shall be provided in the place free from leakages and in a coveredlocation. The Meter Board shall be as per TSSPDCL requirements and shall be fixed firmly on the wall. Any opening made in the wall for feeder cable entry should be sealed properly after installation to avoid entry of rodents and rainwater. The meter Board shall be properly earthed as perther equirements.

3 LTPANELINSTALLATION:

Panelshall be covered properly to preventdust, contamination &damage during transportation. Incase of damages during transportation or unloading etc, the same shall be rectified and made toperfection before installation. No excuse for delay on account of the above will be accepted.

For floor mounted panel, the exact location of the panel and fixing holes to be marked on the concrete plint horthein stallation. Install the panel in proper alignment and fix properly. Tight enall the econnections as required. Access around the panel to be provided as per regulatory requirements for future maintenance ensure the services like AC drain lines or water pipe lines or swater pipe lines pipe lines or swater pipe l

Incomingandoutgoingcablesshallbemarked/identifiedasperapproveddrawing. Allcomponents of hepanelshallbeverifiedagainst the approved panel drawing for correct rating size. Ensure that all internal connections are proper and loose connections are tightened. All breakers (incoming/outgoing) shall be in "OFF" position and to be locked to prevent mishandling

Before commissioning all earth terminals of the panel are firmly connected to the designated earth pits with suitable size of GI strips as required. Check whether the metering equipment and and an admidication lampsare working as desired and rectify the defects, if any. Afterinstallation, the panel shall be properly cleaned and protected to prevent dust & contamination.

4 INSTALLATIONOFDBs:

All DBs wall mounting and floor mounted arrangement shall be in accordance with BOQ and theapprovedmaterial. Ensure that painting of the wall is completed prior to marking and mounting of DB. Confirmlabel/marking to ensure that is the correct DB and check the position according to the approved layout and mark the fixing position of the DB's support. After marking, drillaccording to the selected sizes of anchorbolts to appropriate depth. Permanently fix the DB to the wall/slab with anchor bolts. If there is more than one DB to be installed at the same location, they shall be installed side by side and clearance shall be maintained for easy maintenance and trouble shooting. The height of Distribution Board shall be maintained so that easy access for termination of cables and other maintenance work can be carried out. Cut-out shall be made for inserting the wire in DB and same cutout shall be provided with a rubbergaskets oth at the rewill be made appeals and secure the wire insulation from damage.

Wire inserted in the DB shall be cross-checked for existing circuit number and final ferrulingshall be done. Wire in DB shall be used cable tie and dress with bunching of the phaseneutralandearthand suitably lugged to the respective MCBs andBus bar.Bunchingshall bedone as per phase separation respectively R. Y and В. AfterCrimpinginsulationsleevesshallbeprovidedinthe Wire/Cabletoavoidaccidentalshortcircuitbetweentheadjacentterminals.DBsshallbe provided asperprovisionsavailable withbody earthing connections intheDB.Identificationslabelsofapprovedengravedtypenameplate/Radiumstickersofsuitablefont be fixed on DB.After complete termination ofwire/cable compartmentshallbecleanedbeforefixingthedoor.

When the DB is fixed on the partition care should be taken to ensure the holding capacity of thepartition, to avoid the DB from falling and getting damaged or causing injury. The installation of DB shall be done in such a way to add to the ambience of the Branch. It shall be firmly fixed on the wall partition.

5 LAYINGOFLTCABLE

.5.1 INCABLETRAY:

Whereverthe cable trays are provided, the cables shall be laid in the cable tray. The cable shallbe laid fromone end of the routeorany othersuitable point aspersite conditions. Whereverthecableneedstobebended, the cables bending radius shall conform to the cable manufacturer's recommendation. Prior to cable cutting, check both ends to make sure there is sufficient length for proper dressing and end termination. After cable lying is finished, all cables shall be tested for insulation resistance. Install the cable tags, dress the cables and clamp it asperthe standards. Whenever, single core cables are used, Trefoil (three-foil formation) lying shall be used with single-core cables.

LAYINGTHELTCABLEUNDERGROUND:

Atrenchofabout1.5metersdeepand45cmwideisdug.Thenthetrenchiscoveredwitha10cm thick layer of fine sand.The cable is laid over the sand bed. The sand bed protects the cablefrom the moisture

from the ground. Then the laid cable is again covered with a layer of sand of about 10 cm thick. When multiple cables are to be laid in the same trench, a horizontal or vertical spacing of about 30 cm is provided to reduce the effect of mutual heating. Spacing between the cables also ensures a fault occurring on one cable does not damage the adjacent cable. The trenchisthen covered with bricks and so il to protect the cable from mechanical injury. The LTC ableroutemarkers shall be provided as perstandards.

Theendterminationshallbeprovidedasperthecablesize. Unless specified, the termination shall be compression type glands of proper size and lugs shall forterminationasperthepointofterminationlikeswitchgearterminals, Busbar, terminal connectors etc. for termination.Aluminum Only therespective metallugs shallbe used lugsshallnotbeusedtoterminateinthecopperbusbarsorviceversa.

5.4The cables from the Panel to DB or from Main DB to Sub DBs should be duly fixed withsuitable size clamps if laid in the wall. If more number of cables is to be laid, then they shall belaidincabletraysofsuitablesizefirmlyfixedtotheceilingwiththreadedrods.

5.5 To avoid rodent menace, the contractor shall close all openings made by him in the wall, the unused knockout holes in the DB, Panels, and Junction Boxes with suitable dummies, Blankingplateset can dalso provide sufficient protection to the panels, DB. No claim for additional amount towards rectifying the work on account of damages caused by rodents will be entertained during the defects liability period.

6 CONDUITS:

UnlessotherwisespecifiedallwiringshallbeinrigidPVCconduitembeddedinwall,orceilingorconceale dinthefalseceiling. The size of conduits shall be selected in accordance with the IS regulations and the minimum size of the conduits shall be 20 mm diaunless otherwise indicated or approved. Conduits shall be kept at minimum of 100 mm from the pipes of other non-electrical services.

Separateconduitsandrunwaysshallbeusedfor:

- 1. Lightingsystem.
- 2. Poweroutlets.
- 3. Emergencylight.
- Telephonesystem.
- 5. Firealarmsystem.
- 6. Sound/publicaddresssystem.
- Televisionsystem.
- 8. Computersystem.

Wiring forshortextensionstooutletsinhungceilingortoequipment,motorsetc.shallbeinstalled in **flexible** MS conduits.Otherwise rigid conduitsshallbe used.PVCconduitsshallnotbeusedinoutdoorsystem.Conduitsshallbefreefromsharpedgesandburrs and grease or oilshall not be used for the purpose of pulling the wire. The entire system of conduits must be completely installed and rendered electrically continuous before the conductors are pulled in.

All PVCconduits shallbe jointedwith plain PVC couples using approved PVCjointing materials as recommended by the manufacturer. All joints shall be water tight. Junction between conduitand adaptable boxes, back outlet boxes, switch outlet boxes and the like must be provided withen tryspouts and smooth PVC bushes.

LAYINGOFCONDUITSINSURFACE:

Conduits run on surfaces shall be supported on galvanized / PVC saddles which in turn are properly screwed to the wall or ceiling. Saddless hall be at intervals of not more than 60 cm.

Fixingscrewsshallbewithroundcheeseheadorandrustproofmaterials.Exposedconduitsshall be neatly run parallel or at right angles to the wall of the building.Pull boxes must be provided at the right angles and at a distance of not exceeding 20 meter

CONCEALINGTHECONDUITSINTHEWALL:

Conduits embedded into the walls shall be fixed by means of staples at not more than 60 cmintervals. Chase in the walls hall be nearly

madeandrefilledafterlayingtheconduitandbroughttothefinishofthewall. Chasing shall bedone with the ewallcuttingmachine. Hammerand chisel shall be used on chased portion to get uniform depth of Uniform 50mmshallbemaintainedonchasedportion.ConcealBackboxshallbeinstalledbyusingcement mortar. Alignment of the back box shall be done by using a calibrated spirit level. PVCadaptor shall be used connection between ΙB and conduit. **PVC** solvent used. PVC solvent cements hall be applied on conduit before interconnection. Embedded JB shall be protected by the conductive of the conctedby covering with brown tapefilled withjute/gunny bag. Cement mortar1:5 ratio(1portionof the cement+5 portion of sand)shall be used for patchworkin chasedarea. Chicken(wire) meshand **GInails** shallbe used forallchasing ofthe embedded conduit. Curingshallbecarriedoutforaminimumofthreedays.

CONCEALINGINTHECONCRETE:

Conduitsburiedinconcretestructureshallbeputinpositionandsecurelyfastenedtothereinforcementa ndgotapprovedbytheconsultant/Engineerbeforetheconcreteispoured.Propercare shall be taken to ensure that the conduits and boxes are neither dislocated norchokedat the timeofpouring theconcrete.Suitable fish wires shall be drawn inall

conduits before they are embedded. In spection boxes shall be provided for periodical in spection to facilit at edraw and removal of cables. Such in spection boxes shall be flush with the wall in the case of recessed conduits. In spection boxes shall be spaced at not more than 12 meters a part or two 90 degrees olid bendsor equal.

7 WIRINGANDACCESSORIES:

LAYINGOFWIRES:

UnlessotherwisespecifiedallwiresshallbeFRLSPVCinsulatedsinglecore,strandedcopperconductor.Allwiresshallbecoloredasfollows:

PhaseR:RedColorofwirePhaseY:Y

ellowColorofwirePhaseB:BlueCol

orofwireNeutral:Black

Ground: Yellow Green or Green (One color only to be used for the complete Installation).

Thesize of wires shall be a sindicated in the drawing sor in the BOQ.

When more than one wires are installed in the same raceway, they should be pulled in theraceway at the same time. Use guide wires and similar equipment when wire pulling, to support the tension and avoid possible damage. Conductor splices must be enclosed in junction boxes. Use a minimum of 300mm of slack conductors inside DB and at each outlet as needed. Ensure proper wire installation in all boxes. After installation, the Wires Insulation Test should be conducted.

SWITCHBOARDSANDPOWEROUTLETSOCKETS:

Switch Boards for light points, socket outlets, power outlets, pull / junction boxes shall be ofgalvanizedsteel, and shall be of shapes and size to suit their respective locations and installations and sh all be providedwith coversto suittheir function and installation. Alloutletboxes shall be provided with brass ground terminals. All junction boxes/pull boxes shall have suitable covers. Surface mounted outlet and junction boxes in the outdoor locations shall be ofweatherproof. The surface mounted indoor boxes shall be of sheet steel painted or PVC forsurface installation. For internal use Switches shall be of the grid assembly pattern with rockeroperated switch units suitable foroperation with inductive loads. Switches shall be either oneway or two ways as specified in the BOO. Switch suitable shade plates and size asspecifiedinBOQorapprovedbySBI.Surfaceinstallationswitchesshallbeprovidedwithmatchingstee lbox.

CIRCUITWIRING

Unless and otherwise specified in the BOQ, all sub main circuit conductor sizes for lighting

andappliances, shall be as shown in the schedule of quantities. Each circuit phase wire from the distribution boards should be followed with separate neutral wire of the same size as the circuit wire or asspecified in the BOQ. For the light/fan point wiring individual phase, Neutral and Earth wires shall be run from the switch board to the respective ceiling rose. Looping of neutral and Earth wires for adjacent light points are not allowed except for the secondary points. For the secondary points Neutral and Earth looping should be done only from the

respectiveprimarypoints. This will avoid nuisance tripping of ELCB/RCCB incase of leakage and identif ying the faulty circuit and rectifying will be easy. Each light point and outlets hall be identified with their circuit and rectifying will be easy. cuitnumberandDBnumberwithalabelpastedonthem.Flexiblecordsforconnectiontoappliances,fansa ndpendantsshallbe250/440Vgrade,threeorfourcores,with tinned stranded copper insulated, twisted sheathed with and strengthening cord.IfdemandedbySBI,thecontractorshallsupplyacertificateissuedbythemanufacturerofwiresands witchesstatingorigin,dateofmanufacture,batchnumberandstandardtowhichitcomplies and the test certificates.Looping system of wiring shall be used.Wires bejointed. Wherejoints are unavoidable, these shall be made through approved mechanical connector. 23 0Vpowersupplywiringshallbedistinctlyseparateformanyotherdifferentvoltagesystemandlighting wiring.

CONTROLSWITCHES

Controlswitchesshallbeconnectedinthephaseconductorsonlyandshallbe'ON'whenknobisdown.Sw itches shallbe fixed ingalvanized steelboxes.Chromiumplatedscrewsshallbeused.TheratingoftheSwitchesshallaspertheBOQ.

For the UPSpowersocketsprovided in theworkstations and counters, the controls witches shall be provided separately above the counter and the sockets below the counter.

Similarly, for the wall mounting fan points, the controls witches shall be provided separately in the Switch board and the socket outlet provided near the wall mounted fans.

TESTINGOFELECTRICALWIRINGSYSTEM

TheentireinstallationshallbetestedinaccordancewithISregulationsfor:

- 1. Insulationresistance.
- 2. Earthcontinuity.
- 3. Polarityofsinglepoleswitches.

8. LIGHT FIXTURE INSTALLATIONS:

Inspect the site to install light fixtures as per approved lighting layout. If any mismatch isobservedbetweentheapproved layoutand theactual layout, please consult the SBI Engineerandreplanthelighting layout to suit the actual site conditions.

Ifthere is no false ceiling, chalklines (geru powder cementcolour removable type) shall beused to mark the spacing of light fixtures as per approved drawing. After marking, the light fitting support and accessories shall be fixed. Wires shall be connected to the connector of light fitting sper standard. Light fitting shall be mounted on the support fitted. Line level and final a light ments hall be checked with line dori.

INSTALLATIONOFLIGHTFIXTURESINTHEFALSECEILING:

Whileinstallinglightfixturesinthefalseceiling, the contractor has to check the distance between the roof and the false ceiling and ensure that the sufficient height is available for fixing the light fixtures and if requires any change in the lighting layout. Any hindrance like beams, sewerage pipelines, electrical cablesetc. has to be informed to the SBIEngine erandnecessary guid ance obtained before installation. Support to hangthe fixture to be provided in the roof with suitable length of chain links or GI wires of suitable size, as per recommendation of the light manufacturer. The supports shall be of sufficient length to enable change of location of fixtures to the adjacent grid/cutout, if required by Bank. The supports should not be fixed to the pipesor cablesor electrical conduits running above the false ceiling. The Light fixtures should not be loosely laid on the false ceiling grid without any support.

In case of the Gypsum false ceiling, the marking shall be made in the false ceiling first as per the lighting layout and the cutout shall be made in coordination with the interior contractor. Where verrequired, the suitable frames required have to provided by the contractor for the 2'x2' fixtures.

The cutouts for the light fixtures and down lighters shall be properly marked in the falseceiling to make the cutout neatly and as perthe desired lighting layout. Nylonline dorishall be used to ensure that all light fixtures are in a straight line.

If the works involves, some architectural features in the false ceiling, the contractor shallconsult the interior contractor and SBI Engineers before installation of light fixtures, ceiling fans,lying of cables above false ceiling to avoid any damage or any hindrance to the proposedarchitectural features.

9 EARTHSTRIPS/CABLETRAYS:

GI/COPPERSTRIPLAYING:

BeforeinstallationofGIandcopperearthstrip, theinspectionshall becarried out to confirm size, quantity and galvanizing of GIstrip. Arrangements hall be made for proper scaffold for strip lying on the tray. Checkwall and beam finishing before strip clamping on the wall and beam. Ensure that all Earth strip installations are straight. The earth strip route and size shall beconfirmed/verified with approvede arthing drawing.

Ensure that there is no overlappingin stripsatjoints. Where required for Joint area, use "C" typeholding clamp for avoiding gap between two strips. GIstrip fixing inside cable tray with using of GInutboltate very 5mtr. interval. Clamps shall be fixed at an interval of 1000 mm. Copperto GI earthstrip connection shall be done by using the bimetal licewasher

EARTHSTRIPLAYINGBYWELDINGONWALL/SLAB.

Whenever longerlength of Earth strips are to be installed on wall/slab, the overlapping in stripsat joints shallbe minimum. Overlapping area to be properly weldedandensure no gapin thejoint area. Approved PVC sleeve shall be provided to 50x6mm and 75x10mm GI earth stripwhereveraccessibleareassuchasinsidesubstation, allembedded portionetc. Weldingjoints are clea nedwithwirebrushandthencoatedwithGalvabrite.Allpaint,scaleandenamelshallberemovedfromth econtactbeforetheearthingconnections are made. All sizes of GI strips shall be fixed by using GI clamp, GI 35x8mm GIscrew with **PVC** spacer, and nylon fasteners(PVCGrip).Clampsshallbefixedatanintervalof1000mm(incaseofwall/slab).Theearthingfor Equipment shall be tapped from the main earth conductor/strip. Equipment earthing shall bedonebyGInutbolting.EnsureGInutboltshallbefullytightenedatequipmentearthing.GIstrip

laid underground shall be at depth of 500mm below finished grade level. All joint below groundlevelshallbeweldedbytwocoatsofbitumenpaint. All connections to the grounding gridshall be made with earthing strip welded to the grid and bolted at equipment ends. All joints and cutends shall be properly painted with galvabrite.

CABLETRAYINSTALLATION:

Cable tray supports and cable tray material shall confirm the size, quantity and quality as pertechnical specification. Cable tray routes shall becleared fany debris. Necessary cable trayroute and supports shall be checked as per approved drawings. If required, make suitable size opening in the wall for cable tray entry into the building. All accessories used such as joint plate, nut, bolts with washer, bends, reducers, etc. used in cable trays shall be of the same manufacturer ast hat of the cable trays. Necessary Scaffolding shall be arranged where verapplicable. Throughout the work execution, safety standards shall be followed.

Chalklines(gerupowdercementcolourremovabletype)areusedtomarkthecabletrayrouteatthedecksl ab.After markingofsupportslocation,drillthehole&installanchorfastener.Ceiling bracket and top hat section shall be fixed on anchor fastener. Install the threaded rodsupports using with ceiling bracket as per approved drawing. Check the vertical and horizontalalignmentofthreaded rod support by spirit level. Supportsshall be installed atspacing

notexceeding1.5metersandallbranches,bends,Endpointssupportsshallbeinstalledasshownontheap proveddrawings.Nylonlinedoriwillbeusedtoensurethatallsupportsareinastraight line. After the installation of supports install the proper size cable tray and check thealignment using of line dori& Sprit level. Two lengths of cable tray shall be connected with thejoint plate. Minimum clearance shall be maintained between bottomof the tray and the ceiling.Endcaptobeprovidedatendcutportionoftray.

10 CORECUT:

Core cut hole shall be carried out at the site as per the site requirement after consulting CivilEngineer. Ensure marking of core cut is in line of existing cut out at the floor above or below tohaveverticalalignment.IfmorethanoneCorecutisrequired,requiredspacingshallbeprovided.Centr eofcorecuttobedrilledwithdrillmachinetoreceivecorebitofmachine. This will avoid displacement of core machine bit. The Core cut Machine will be Fixed to Slab using Machine Clamp and anchor Fastener. Check that machine is firmed enough nottodisplaced from its location. Check the electrical supply and run the machine with minimal force. Maintainproper gaps between adjacent core cuts allow jointing future.Upon completion pipe in thecorecut, protect the Corecutholeusing the ply piece.

11 CONCEALINGINSIDEWALL/PARTITIONS/GROUND/CEILING:

The contractor shall give due notice to the Employer whenever any work like opening fortheearthpits, undergroundlaying of cables, concealing the conduit piping, cabling or anywor kistobe concealed in the wall/false ceiling/partitions or finished upon otherwise becoming in accessible later on, in order that the work may be inspected and correct dimensions taken before concealing.

Contractor 111.2 **Ifthe** has concealed the items without informing SBI Engineer, the same shall be opened up for measurement and made good to the original finishing at the cont ractor's expenses. If the contractor refuses to do so, then the same will not be considered for measurement a ndnopaymentmaybemadeforsuchmaterials. The contractor shall not execute any extra work other than the Bank's or SBI written instruction. No works, for which rates are not specifically mentioned in the price bid, shall be taken up without written permission of the Bank/SBI. Should any dispute or differences arise after the execution of any work as to measurements etc., or other matters which cannot be conveniently tested or checked, the decision of SBI shall be accepted as correct and binding on the contractor. It is the responsibility of the Contractor to arrange/provide the tools, ladder, stands or any other gadgets or supports required for the execution of the work at site and Bank will not provide or entertain such requests.

PROPOSED CLASS ROOM-5 FOR STATE BANK INSTITUTE OF RURAL BANKING SITUATED AT LINGAMPALLY, HYDERABAD, TELANGANA.

SCHEDULE OF QUANTITIES AND DETAILED SPECIFICATIONS

S. No.	Description	Qty	<u>Units</u>	Rate	Amount
	DISTRIBUTION BOARDS				
1	Supply, erection, testing and commissioning of Double Door type MCB Distribution Boards, wall mounted (either surface / recess mounted). The erection rate shall include fixing of DB on a M.S frame, Providing 32mm dia. FRLS PVC pipe for cable incoming and all other fixing accessories and necessary civil works as required.				
a	8 Way, TPN MCB RCCB/RCBO (Metal door)with 63A, 4P, MCB ELCB -1 No as incomer and 6- 32 A (10KA) SP MCBs -24 Nos as outgoings. For lighting + Power DB	1	Nos		
2	UPS RELATED DB'S				
a	18 WAY SPN DB with 40 Amp DP MCB as Incomer & 6 Amp SP MCB 10 No's as outcoming For UPS POINTS	1	Nos		
b	63A 4 POLE RCCB to AC Out door unit from panel and panel for Panel Incomer with enclosure	4	Nos		
3	CABLES				
	Supply and laying following size 1.1KV grade PVC insulated armoured aluminium/Cu. FRLS conductor under ground cable on the surface of wall, above false ceiling along with 2runs of 12swg GI wire with all installation materials. The cable shall conform to IS 1554 Part- I.scope also includes termination of the cable as required with suitable glands and lugs				
a	4 core x 6sqmm Copper Armoured Cable for LDB I/C, INCOMING	50	Mtr		

b	4 core x 10sqmm Copper Armoured	80	Mtr	
	Cable for UPS			
С	4 core x 4sqmm Copper Armoured	30	Mtr

8	Enbrigating supplying and installation			
0	Fabricating, supplying and installation,			
	in floor including chase cutting of			
	floor, leveling, refilling and making			
	good the same 2 mm thick cover			
	pregalvanised GI raceways, totally			
	enclosed, height 40 mm . The two			
	lengths of raceways shall be fitted with			
	Collars , 50 mm wide, 3 mm thick , press			
	fit type. The raceways shall be clamped			
	to the floor slab with GI clamps ,3mm thick and shall be screwed to the floor			
	slab. The joint between raceway and junction box will be made with GI			
	flexible strip(3nos), 3 mm thick, 4			
	inches long ,15 mm wide which will be			
	nut bolted to the Junction box complete			
	as required etc. The knockout shall be			
	<u> </u>			
	removed at the site as per requirements. Junction boxes shall be leveled at the			
	time of installation and shall be earthed			
	with 8 Swg G.I wire. Junction boxes and			
	raceway shall be covered with plastic			
	bags during backfilling of concrete			
	work.			
	RACEWAY
